We aim at organizing all Courses of the European School of Nuclear Medicine according to the criteria of the Austrian Eco-label for Green Meetings / Green Events.

Let us think about the environment and our future – act sustainable:

- If this is possible, use environmentally compatible, public means of transportation to travel to the course venue, or share a car.
- If you cannot or do not want to do without your car, or if you travel by plane, you can offset your CO2 emissions by means of compensation payments.
- If possible, choose an eco-labelled hotel (Austrian Eco-label, European Ecolabel, EMAS or others).
- Make use of the environmentally benign offers of your hotel (change of towels and bed linen only when needed or the like).
- Turn off all lights, electronic equipment (TV, air condition system, heating, computer etc.) when you leave the hotel room for some time.
- Reusability = environmental protection: Give preference to drinks served by the glass, meals served on crockery, milk and sugar without individual packaging etc.
- Dispose of your waste (PET, glass, paper, metal, batteries, etc.) via the separate collection systems provided at the hotel and at the event venue.
- Use public transportation or walk.
- If possible, use online registration and/or digital materials instead of paper copies / handouts.

Thank you for your help!

In this sense, the ESNM Office takes the following measures:

- We only print the most essential documents.
- We only use totally chlorine-free bleached TCF paper for our printed materials.
- Our catering includes sustainable criteria such as regionality, seasonality and organic quality.
- We only use reusable dishes.
- We pay strict attention to waste separation.
